

## Press Release

NICOSIA 24.07.2008

**SUBJECT EXA HPC, Stream Engineering Ltd, and INSA SA to collaborate in the development of a satellite based forest fire detection system for Cyprus.**

EXA HPC in partnership with Stream Engineering Ltd, and INSA SA have submitted to the government of Cyprus a proposal for the development of a satellite based forest fire detection system. The proposed system is based on the REMFIRESAT framework developed by INSA in partnership with the European Space Agency (ESA).

More information on the proposal partners can be found at the following websites:

- Stream Engineering Ltd: <http://www.streamengineering.com>
- INSA SA: <http://www.insa.es>

### **About EXA High Performance Computing Ltd**

EXA HPC is a Cypriot company active in the field of parallel, high performance, and multicore software development. It also provides integrated computational, research and technology development, and training and consulting services in the aforementioned fields.
